

# Analytical Laboratories Be Prepared!

**Safety centers on me,**

Keep gloves off keyboards, cell phones and touchscreens.

Use proper PPE in the Lab.

Does your waste solvent have secondary containment?

**HPLC**

Label chemicals so others will know what they are.

A clean lab = accurate results.

Safely store compressed gases.

Check for leaks in pumps and tubing.

Do you know how to dispose of biologicals, sharps and broken glass?  
If not, ASK!

**<EXIT>**
