

Guidelines for a Safer Upper-Level Undergraduate Laboratory

**Plan ahead - be
prepared for
experiments**

Leave lab
clean/organized
& equipment in
good operating
condition

Know
emergency &
evacuation
protocols

Label
& dispose
of chemical
waste
properly

If you
don't
know...
ASK

Be aware
of what others
are doing

Proper
lab attire,
eye protection
& glove usage

Label
secondary
containers
properly

Store
& transport
chemicals &
compressed
gases
properly

Proper use of
instruments &
equipment
