Subject: Complimentary Cengage Materials for your transition to online courses

Hello Professor,

You may have seen a message from the Cengage Team come through about support for customers. I wanted to personally contact you to provide more information about ways we can support you and your students during this unexpected, mid-term disruption.

Given this unique situation, Cengage is providing students and instructors the option to use our online platforms at no charge for the rest of the term, by providing students complimentary access to [Cengage Unlimited](#), and therefore, access to all courseware and eTexts during this time. Cengage courseware (such as MindTap & WebAssign) can make delivery of online homework, study tools, and assessment simple and more efficient for your course.

We are also providing services to help faculty shift their classes online. **Our entire [catalog](#) is available for students if you are looking for a solution in any course.**

Today, Friday, March 13th, Shawn Orr – Director of the Center for Innovation and Teaching Excellence at Ashland University – will be leading a free webinar on strategies for moving instruction online. You can register for this free webinar and access the recording [by clicking here](#).

During this time of uncertainty, please know I am here to help lessen the strain on you and your students. **I am available to meet virtually over Zoom if you would like to discuss these items in further detail.**

**Please note that your discipline (Nursing, Engineering, Criminal Justice, etc.) may be covered by one of my team members. I will be happy to put you in contact with them if that were to occur.*

Thank you,

[Check Platform Status and Performance](#)

[Training Resources for Instructors and Students](#)

We're giving you everything we've got with [Cengage Unlimited](#)!
