Subject: Prepare for Remote Teaching with Free Access to JoVE

[View this email in your browser](#)

Dear Joseph,

In light of the COVID-19 outbreak, many colleges and universities are making the difficult decision to move to remote teaching and learning models. Whether your institution is already moving forward with such an initiative, or preparing for the possibility, we want to support you in your remote learning efforts.

JoVE is happy to provide all of our Education video content free to use in STEM teaching efforts through June 15th.

[JoVE Core](#) - isolate key scientific concepts and visualize them to maximize learning comprehension. This video textbook, available in [Biology](#) and [Social Psychology](#), can be used as your primary teaching resource or supplement teaching materials.

[JoVE Science Education](#) - teach scientific fundamentals with this video library of simple easy-to-understand video demonstrations in 8 STEM fields.

[Lab Manual](#) - bring the lab home with comprehensive, curriculum-focused videos for introductory biology lab courses.

No strings. This is our opportunity to give back to our education community at a time where flexibility and adaptability are crucial. All you have to do is let us know you want to get setup by completing the form below or just replying to this email and we'll take it from there.

[Activate My Free Access](#)

Best wishes,
JoVE
