

Teaching remotely together: Lessons learned

ACS Webinar, June 30, 2020

Resource list

The chemistry community has a wide range of resources to assist with teaching remotely in various and changing circumstances, some of which are compiled here. To facilitate use of this list, resources are organized into the general categories considered during the ACS Webinar held on June 30, 2020.

This resource is available outside of ACS and is provided for informational use only. Inclusion of a product or service on this list does **not constitute an endorsement by ACS.*
